EMECNET

The NETWORK of the Leading Firms in EMEC

"To ensure European Marine Equipment to maintain world leading status and technological edge through influencing policy and providing support to policy decision makers"

In 2005 EMEC announced a major extension of the Council's role in Brussels on behalf of the industry through the involvement of leading European marine equipment and system companies.

A key aspect of this development was the launch of **'EMEC NETWORK'** and the specially invited audience of senior executives from the leading companies in the sector were given a preview of some of the plans already underway.

The **EMEC Network** involves the larger equipment companies directly and thereby strengthens the links between the industry's leading companies through sharing of market intelligence, providing a vehicle for greater cooperation with shipowners and shipyards.

Who can join

Open to Leading companies in the Marine Equipment Sector selected by the National Associations, members of EMEC.

Leading companies from European Countries not represented in EMEC

How to join

Membership is based on an annual fee.

Objectives:

Maintain a social network of industry leaders and facilitate new initiatives to strengthen the marine equipment sector

Provide input for EMEC and radically increase its influence at European level

Take initiative in the field of Research, Innovation and Development/EMECrid

Challenge Small and Medium Enterprises (SMEs) to join European projects

Leading companies supporting EMECNET
